Benezra, who Price said sustained a cut on the head, and his wife, who suffered neck injuries, returned to Keesler. Creekmore was placed in County jail on a charge of reckless driving and driving while intoxicated.

A passenger in his car, Etha Woods, Price added, who was charged with simple drunkenness, was treated at Hancock General Hospital for a knee injury. Creekmore was driving west on U. S. Creekmore and the Woods woman were tried in Beat 5 Justice of the Peace Nelius Rhodes Court Tuesday. Ray Gordon, president Hancock County Chamber of Commerce, received the following letter in response to a request from the chamber asking the Louisville and Nashville Railroad Company to have the commuter train stop at the Michoud plant in order to pick up and discharge passengers:

Mr. W. Ray Gordon, President Hancock County Chamber of Commerce Bay St. Louis Mississippi Home.

I have received your letter regarding the possibility of having the Coast commuter train stop at the Michoud plant, traveling both east and west, to pick up and discharge passengers. I regret to say that our present commuter trains would not accommodate a great increase of additional passengers, and we could not justify purchasing new or additional equipment to add to these trains. These trains constitute a financial burden for us. For several years we have lost large sums of money on these commuter trains, and we are confronted with a problem of having to make some adjustments in this service to reduce the losses we are now incurring. As an example, in 1961, alone, the out-of-pocket losses on these trains, Nos. 9 and 12, amounted to \$64,734.00.

The sad thing about a commuter service is that the situation would not be alleviated by carrying more passengers. The principal reason for this is that the commuter trains are generally used only in the mornings and evenings, usually just one round trip per set of equipment, and the rest of the day the trains and crew stand idle, but the cost of the crews and maintenance of equipment go on and on. Additionally, commuter fares are so low that they are short of covering the cost of performing the service, in other words an additional fare doesn't compensate for the additional cars, crews, services, etc., therefore the loss increases with the service performed.

It had been previously suggested that we operate a commuter train in connection with the Michoud plant, but upon checking with Michoud authorities they reported they were not interested in underwriting such a train, and further that our main line is too far away from the plant for passenger service to be used effectively, and also that a survey indicated that only one employee out of those who were contacted in the NASA organization had expressed any interest in public transportation.

Under the circumstances, as our present commuter service incurs a serious financial loss and as this loss would not be materially decreased by additional service, we could not agree to attempt to take care of the problem with our existing service, nor to add additional services except on a cost-plus basis.

Yours very truly,
William H. Kendall
President

LAKESHORE AND CLERMONT HARBOR NEWS

By Aline (Pee Wee) Courge

The Civics Association of Clermont Harbor held their monthly meeting, Saturday, August 18, and elected new officers for the coming year. They are as follows:

President Mr. Leonard Rupp, Vice President Mr. Dwat. Secretary Mr. Russell Elliott, and Treasurer Mr. Goodlow.

Mr. and Mrs. C. M. Burgdorf of Clermont Harbor motored to New Orleans Sunday to visit their daughter and son-in-law, Mr. and Mrs. Ed Sutton.

Mr. and Mrs. Sutton's son, Eddie, returned to Clermont with his grandparents to spend a week with them.

Mrs. George Montgomery, who has returned to Lakeshore after spending two weeks with her niece, Mrs. J. Stonicher of New Orleans, had as her guests Mr. and Mrs. A. Walker of Biloxi, and Mr. and Mrs. S. Sparks of New Orleans.

Oh Yes, I am sure everyone would be interested to know that while Mrs. Montgomery was away someone stole a tire and a mail box from in front of her home. As far as the tire, it was one she found in front of her house and she only hopes that it was the owner repossessing it, but the mail box happens to be a federal offense, and someone is in some real hot water if they don't return it mighty fast, for it is in the hands of the F. B. I.

Spending this week with Deanie McCardle of Lakeshore is Sandra Matthews of New Orleans.

Happy Birthday wishes are extended to Ray Ladner who celebrated his 16th birthday August

17, with a party at the Clermont Lakeshore Youth Center.

Cornelius Mason returned to his home in Lakeshore last week for a two week leave from the Biloxi Hospital, where he has undergone X-Rays and tests for over two months. We hope that he will be able to return home to stay very soon.

We wish to extend our deepest sympathy to Mrs. George Green, whose father David R. Graham of New Orleans passed away last Saturday morning. He was buried in the Garden of Memories Monday afternoon. Mrs. Green is spending a few days with her mother in New Orleans.

Get well wishes are extended to Mrs. Louise Ladner, who has been in the hospital, and Jerry Carco, who had his tonsils removed last week.

Right now I would like to try and get some attention from some of the local teen agers, and this is the best way I could think of, by mentioning some of the romances going on. Miss Deanie McCardle seems pretty interested in one Gary Fricke, Miss Gaynell Ladner and Stephen Church have been seeing a good bit of each other since they are going steady. Miss Sandra Mathews and Carlos Ladner seem to be in orbit. Miss Marie Ladner and Vic Green seem to really be enjoying the summer together. Miss Brenda O'Farrell is now proudly wearing Johnny Halcis's ring. Linda Garcia and Emmett Lusich seem almost impatible after going steady for almost 4 years, and yours truly has been going steady with Greg Kothmann for over a year.

If anyone has any objections to this column please notify me and I will stop it immediately.

Jack Hyman and family of New Orleans are spending this week in their lovely summer home in

STATEWIDE CONFERENCE FOR MENTALLY RETARDED SEPT. 15 IN JACKSON

Program participants in the state-wide Conference on Religious Nurture for the Mentally Retarded, to be held in Jackson, September 15, met on Thursday, August 16, at the Robert E. Lee Hotel for a planning meeting.

Lay and professional leaders in the program for the retarded have been chosen to serve on the faculty for this conference on religious nurture. Each member will have a significant contribution to make to the overall program.

This conference, co-sponsored by the Mississippi Association for Retarded Children and the United Church Women of Mississippi, is the first of its kind to be held in the state. Mrs. S. C. Meisburg,

President of this association, extending an invitation to ministers, educators, workers, and lay persons, to attend a meeting which will be held September 15, beginning at 8 A. M.

The challenge of the church ministry to persons with special needs is receiving special emphasis in many denominations this year. New opportunities for service are being discovered every day. It is estimated that there are 40,000 mentally retarded persons in our state. This conference is designed to present both the needs and the ways in which to meet them in this most important area of religious nurture.

Safety, T. B. Birdsong, voiced this comment: "This law will provide our Livestock Theft Bureau with another valuable weapon in the enforcement of Cattle Theft Laws. It offers even more protection to our State's cattlemen."

Mississippi Highway Patrol Livestock Theft Bureau Director, Ed Ainsworth, pointed out that these guns have a great potential for illicit use. "It is easy for Cattle Rustlers", said Ainsworth, "to use these guns or pistols to render cattle docile and thus make the theft of them much easier. We are glad that the recent session of the Legislature made the registration of the guns mandatory and the sale of the guns a matter of record kept by the seller. This will give a large measure of control and discourage the use of the guns for illegal purposes. It will in no way interfere with their application for legal uses."

The registration required by law

is submitted on forms available at any Highway Patrol Sub-Station, or from the Livestock Theft Bureau, Mississippi Highway Patrol, Jackson.

The registration forms are submitted to the Commissioner of Public Safety at the same address.

Mississippi farmers got a whopping 39.3 increase in income from crops during the first five months of 1962, according to the figures compiled at New Orleans by the U. S. Department of Commerce, as obtained from Department of Agriculture's Economic Research Service.

Cash sales of crops for five months in Mississippi ran up to \$67 million as compared to \$48.1 in a like period the previous year. Agricultural income in many areas of the nation actually declined this year over last year in cash received. In Mississippi, Livestock income was down a little less than four per cent, but the

great increase in crop receipts much more than made up for the decline.

Mississippians are prone to forget sometimes that the agricultural income of the state is still a very major slice of the economy.

especially if you are a farmer. We need to balance our cultural income with industrial receipts and are doing just that.

Stranded—and not a soul in sight. Read the 10 tips from Shell, below. They could help you avoid getting stuck in the middle of nowhere.

Shell suggests 10 ways to reduce your chances of getting stranded when you're miles from help

1. Make your own roadside emergency kit and always carry it in your trunk. It could save you a lot of trouble someday. Your kit should include: a spare fan belt, a strong tow rope, a gallon can of water, a flashlight with extra batteries, pliers, screwdriver, and several wrenches.

2. Check both your spare tire and jack. A flat tire is usually more annoying than serious. But it can leave you stranded if your spare is flat or your jack doesn't work. So always have the air pressure in your spare checked at the same time as the rest of your tires. And make sure your jack is in good working order.

3. Find out where your car fuses are located. Your car has fuses that do the same job as the ones in your home. And they're just as easy to replace if you know where to find them. So have your Shell dealer show you where each fuse is. And carry extra fuses in your glove compartment.

4. Hide a spare ignition key in your car. If you've ever lost your keys in the back country, you know how important this is. Be sure that everyone who drives your car knows where the extra key is hidden.

5. Check for the three troubles that cause nearly half of all breakdowns. The American Automobile Association reports that tires, weak batteries, and faulty electrical systems account for 45 percent of all car breakdowns. So have your Shell dealer check all three frequently.

6. Don't plow through water. Here's a good rule to follow. If there's the slightest

chance that the water is deep enough to reach your tailpipe, turn your car around and look for an alternate route. This may take you a few miles out of your way, but it's better than stalling in water.

EXTREMELY IMPORTANT: Test your brakes after driving through water. Even a few inches of water can cause temporary brake failure. If this happens, drive with extreme caution until the brake linings dry.

7. Don't let your gas tank get below half full in lonely country. Americans ran out of gas more than 2 million times last year. If you know you'll be driving in a remote area, fill up before you get to it. And check your gas gauge regularly in isolated country. It can be a long way between service stations.

8. Try these tips if a stuck wheel nut keeps you from changing a tire.

a) Make sure you're turning the lug wrench the right way. Some cars have right-hand threads. Others have left-hand threads. And they're not always clearly marked.

b) Give a stuck nut a few sharp raps with a hammer or rock. (Be careful not to hit any exposed lug threads). Then try the wrench again. If the nut still refuses to budge, try turning the wrench with a sudden snapping motion.

9. Try "rocking out" when you're stuck in mud or sand. Put the car in reverse and apply power gently. As soon as the wheels start to spin, reduce power and shift into forward gear. Ease forward until the wheels

spin again. With each back and forth rock, your car should go a little further—until you're out of trouble.

10. If "rocking out" doesn't work, build a pathway of sticks. Place sticks or branches in front of and under the rear wheels. Start the car forward slowly, and gradually increase speed. By the time you reach the end of your path, you should have enough momentum to carry you forward.

HOME AGENT'S NOTES

We are seeing a lot about August being Sandwich month. Special foods and special promotions of foods to whet our appetites.

Girls in the 4-H foods project find pointers on making and keeping sandwiches fresh and safe for picnics in a special unit of their 4-H foods work. Perhaps you would like to share with them one of their favorite recipes for

HERO SANDWICH

To make this "heroic" size sandwich, choose any of these ingredients. Start with long French rolls, or hot dog buns. Spread these with mustard, mayonnaise or butter, add slices of bologna, boiled ham, canned lunch meat, tomatoes, cheese, green pepper, hard cooked eggs, lettuce, pickles or whatever you would like. Cut the roll into thirds and serve or pack "as is" for lunch away from home. Along with the sandwich the 4-Hers suggest:

shake well. Pour over ice in a
glass and serve at once.

You may chill chocolate malt
and take along on a picnic.

DESSERT FOR A SANDWICH MEAL

The easiest dessert for a sandwich meal whether it's in the house, back yard or a picnic away from home - is fresh fruit. These tasty desserts come already juiced in their own peel.

Wash glossy, red apples; juicy oranges; cool green grapes, sunny bananas; or ripe peaches. Take peeling off when you are ready to eat. No fuss or bother to pack and carry. And they are nutritious, too.

OTHER MILK DRINKS

In making milk drinks always add the juice to the milk and do it slowly.

Brown cow - 3 tablespoons chocolate syrup, 1 cup milk, vanilla.

Jersey Cow - 3 tablespoons

RESEARCH SHOWS WINTERING COST OF BEEF CATTLE

STATE COLLEGE, MISS. - As summer draws to a close, cattlemen's interest turn to methods of wintering their herds. A recent report by Superintendent Louie Walton of the Black Belt Branch Experiment Station at Brooksville reveals some cost figures for cattlemen in the prairie section of Mississippi.

Brood cows carrying calves at the Black Belt Station have been wintered for three consecutive years on fescue alone at a cost of \$13 per cow for the period of November 1 to April 1. Silage with frosted pasture grass wintering has cost \$18 and a cottonseed meal and hay program \$24.50. The above costs may be reduced further when corn fields and other grazing areas are utilized.

Mr. Walton has found that calf weights may be increased approximately one-half pound daily by using oat forage as a creep supplement where as many as 10 calves may be grazed per acre if begun in early November.

Where early grazing is desired, oat-ryegrass forage has provided the cheapest winter forage. Ryegrass provides a cheap source of forage, except it comes later than the above mixture. Calves weighing 350 to 400 pounds have given more total gains per acre than other weights.

In the prairie section of Mississippi, where major farming interest has shifted from row crops to forage, properly managed cow-calf programs are one of the most dependable sources of income, Mr. Walton says. This is especially true where producers have enough land for good grazing to hold winter feed costs to a minimum. His complete report is published in the August issue of Mississippi

maple syrup, 1 cup milk, vanilla.

Purple Cow - use equal parts of grape juice and cold milk. Add juice slowly to milk.

Orange Blossom - equal parts of milk and orange juice, drop of vanilla.

NG Returns

Johnny comes marching home
to all parts of Mississippi. Units of
the Mississippi National Guard
that were called into federal ser-
vice in the face of the Berlin
crisis a year ago are now return-
ing home to their old assignments
in Mississippi.

Movement back to the Mag-
nolia state began late in July. All
units will have returned to state
status by the 20th of August.

Mississippi units were assigned
primary missions in the effort to
bolster the nation's defense during
Berlin crisis. They served as post
M. P.'s air evacuation units, and
post ordnance companies, just to
mention a few. Their assignments
took them to Forts Polk in Louis-
iana, Chaffee in Arkansas, Gordon
in Georgia, and Bragg in North
Carolina.

The units have been honored
upon their return throughout the
state with bar-b-q's, fish fries,
formal banquets and dances.

Mississippi units returned to
Jackson, Pascagoula, Natchez,
Webb, West Point, Calhoun city,
Houston, Clarksdale, Bruce, Char-

leston, Yazoo City,
and Bay St. Louis.
The 123rd Medical
and the 153rd Tactical
Squadron (Air)
Meridian are due to arrive
next week.

Fishing has improved a little over the past weekend. Fresh water fish have been hitting exceptionally well and salt water fishing has improved. Speckles and red fish are being caught in outside waters and seem to be coming in, quite a few are being caught at Half moon but are still on the pan size type.

Joe Kern was showing us two large size red fish caught Monday at Half Moon. He said his party also caught some flounders and specks.

Wop Glover has been talking about his new boat and motor he recently acquired. He is really going after green trout in earnest.

Luke Elliott was over this week end, and as usual caught his share of green trout.

Horatio Favre, George Anderson, Donald Cuevas, John Oliver and Frank Trapani journeyed to Beaumont, Texas this week to see the Dupas Watson fight Tuesday night. Dupas opened his bid for a third world championship chance. Dupas is a favorite with the above and they never miss a chance to see Ralph fight.

August Rauxet and others are getting their speed bulls ready for outside speckle trout fishing from now on. The speckles usually come in about this time of year and fishing anywhere in the La., marshes is about as good or better as anywhere in the country. Half moon, Nine mile and Three mile Bayous are favorite fishing spots with our local anglers.

Doctor Emile Bertucci has returned to Arabi after spending his vacation at his home near Fenton. Doc had a time with his fishing. He loves fly fishing and did quite a bit while over.

Capt. and Mrs. Howard Duff and five children left New Orleans for Oklahoma, where they will be stationed for the next 2 years. Howard promised to let us know

Bourg-Kergosien Wedding

Miss Lynnette Marie Kergosien, daughter of Mr. and Mrs. Ogden A. Kergosien of Bay St. Louis, became the bride of Hamilton Dean Joseph Bourg III, son of Mr. and Mrs. Anthony Thomas Passantino of Thibodaux, La., Saturday morning at 10 o'clock at a Nuptial Mass in Our Lady of the Gulf Church. The Rev. Kevin Reid officiated at the double ring ceremony.

Golden vases of white stock and mums trimmed the altars and tall baskets of similar blossoms decorated the chancel. Professor Joseph Hemmersbach, organist, played the processional and recessional and a program of appropriate music during the ceremony.

Given in marriage by her father, the bride wore an imported tulle and summer silk taffeta gown. The fitted bodice featured a Sabrina neckline and short cap sleeves. The bouffant skirt was trimmed with appliques of tulle of fleur de lis and bustle back ending in a chapel train.

Her veil of illusion fell from a pearl tiara, and she carried a bouquet of English ivy, stephanotis and fleur d'amour centered with a white orchid. Miss Juanita Hymel of New Orleans, maid of honor and only attendant, wore a street length beige organza dress. The bodice over lace featured a round neckline and short sleeves. The
